

<p>What is a parameter?</p>	<p>Describe the behaviour of the control structure known as 'Iteration'?</p>	<p>What is beta testing?</p>
<p>What would be the effect on 'Sound Quality' if sound is sampled at a higher bitrate?</p>	<p>Which data transfer medium "uses pulses of light to transport data"?</p>	<p>"Written commands controlling a computer"...is an example of which user interface?</p>

<p>What is a parameter?</p> <p><b>A variable, which will store a value that is passed from the main program to a subroutine. Not to be confused with an argument, which is the value that is passed.</b></p>	<p>Describe the behaviour of the control structure known as 'Iteration'?</p> <p><b>Executing instructions repeatedly (either for a set number of times or whilst a condition occurs)</b></p>	<p>What is beta testing?</p> <p><b>Testing that is carried out on a 'near complete' version of the program, which is distributed to large numbers of people, where 'real' users get to use the software under realistic conditions and report back to the developers any bugs / shortcomings that they find.</b></p>
<p>What would be the effect on 'Sound Quality' if sound is sampled at a higher bitrate?</p> <p><b>Higher Quality</b></p>	<p>Which data transfer medium "uses pulses of light to transport data"?</p> <p><b>Fibre Optics</b></p>	<p>"Written commands controlling a computer"...is an example of which user interface?</p> <p><b>Command Line</b></p>
