<p><i>What is the decimal representation of the hexadecimal number 55</i></p> <p>The decimal representation of the hexadecimal number 55 is 85.</p>	<p><i>What is the purpose of FTP protocol</i></p> <p>FTP protocol is used for file transfer on a network.</p>	<p><i>What can an output be in programming</i></p> <p>It can be displaying text or playing sound, for example.</p>
<p><i>What is the principle of run length encoding</i></p> <p>To find patterns of similar data that can be removed and then reconstructed later.</p>	<p><i>What is an advantage of lossless compression over lossy compression</i></p> <p>It retains the file's original data, while reducing its size.</p>	<p><i>What is an algorithm</i></p> <p>An algorithm is a set of steps/instructions needed to complete a task.</p>
