

<p>What is the base of the binary number system</p>	<p>What is the role of the Instruction Register in the Von Neumann Architecture</p>	<p>What do we use to close a file</p>
<p>What is the place value system used in the binary number system</p>	<p>What is the relationship between resolution and image quality</p>	<p>What is multi-tasking in an operating system</p>

<p>What is the base of the binary number system</p> <p>2</p>	<p>What is the role of the Instruction Register in the Von Neumann Architecture</p> <p>It holds the current instruction being executed.</p>	<p>What do we use to close a file</p> <p>- The 'close()' function.</p>
<p>What is the place value system used in the binary number system</p> <p>0, 1, 2, 4, 8, etc.</p>	<p>What is the relationship between resolution and image quality</p> <p>Higher resolution means a more defined image.</p>	<p>What is multi-tasking in an operating system</p> <p>Multi-tasking in an operating system is the ability to manage CPU processes so that multiple programs can run at once.</p>
